

Saint-Gaudens

METAL ARTS

Valerie Saint-Gaudens has been a fine jewelry designer for over 30 years. In 1998, she adapted her jewelry-wax carving skills to create bronze tiles to ornament her new home. It was a natural evolution from carved gold jewelry to carved bronze tiles, set with gemstones. The result: a collection of jewelry for the home. The goal: to always be surrounded by beauty and fine design. She hopes you will enjoy her art in your own home.

SOLID BRONZE

Cast in one fiery pour. Hand patinaed. Polished as fine sculpture. Eternally strong.

Saint-Gaudens Bronze Tile is the real thing. It will never chip, peel, or warp. You can walk on it, and it only looks richer. You can use it outdoors and nature will take over, painting the bronze with a beautiful verdigris patina. Think of ancient Greek sculptures, from 2,500 years ago, and you'll get a sense of the eternal quality of this luxurious metal. Solid bronze tiles differ from other "metal" tiles on the market, some of which are made of powdered metal mixed with plastics, which can scratch and warp. Other tiles are cast in a softer pot metal, then plated with different metal colors. These can bend, and the plating can wear or peel off. Still other metallic colored tiles are glazes over ceramic, which abrade and chip. Solid eternal bronze is a choice you will never regret.

Custom Designs

If you have a special request or project, we can design a custom tile, plaque, or hardware for you. Please call for a quote. This 5" x 6 1/2" piece was done for the restoration of an Art Deco Building.

Our Patinas

We cast in two metals: Bronze and White Bronze (Silvertone). All finishes are sealed with a sculpture quality sealer.

Bronze

Bronze with a dark brown patina, highlighted. This finish may darken a little with time. If desired, polish with Scotchbrite and apply a coat of Johnson's Paste Wax.

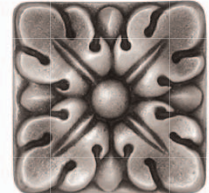

Bronze Verdigris

We speed up nature's work, creating a natural soft green patina. Layers of patina, applied by hand, take more time to develop than other patinas. Bronze is highlighted.

Oil Rubbed Bronze

Bronze with a dark brown/black patina. Very light highlighting of the bronze. This patina will only lighten if it is scrubbed with an abrasive pad or is walked upon.

Silvertone

White Bronze with a black patina, highlighted. White Bronze is an alloy containing nickel, which makes it very stable. It has a warm white color, and will not darken.

Red Jasper

Leopard Skin Jasper

Unikite

Amethyst

Lapis

Green Onyx

Tiger's Eye

Hematite

Howlite

Black Onyx

Our Jewels

We use only genuine natural gemstones, hand-polished into cabochons. Any jeweled tile can be set with any jewel, and are set to your order. Jewels which naturally have a lot of color variation are shown on the left. You may tell us which color range you prefer and we will do our best to please you.

Segovia Cornices and Small Jeweled Acanthus with Unikite jewels in Bronze Patina combined with glass and ceramic tile in a bathroom.

Acanthus Jeweled Liners with Tigereye and Medium Barcelonas in Bronze Patina combined with ceramic tile.

Pine Squares, Pine Liners and Prado Liners in Bronze Patina combined with glass and ceramic tile. Matching Pine Knobs in Bronze Patina mounted on cabinets.

This group was created for a client in California designing her home among the oak-covered hills. She scattered the leaves above in a garden pathway paved with pebbles. The piece at left is a large keystone that crowned her rock fireplace. (All oak pieces except this keystone are available)

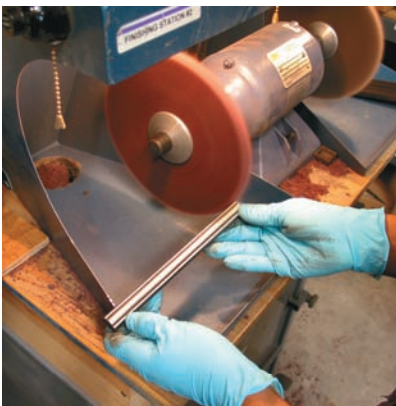

Bronze tiles in patina bath

The Odyssey makes any entry grand.

Compass Rose with Red Jasper decorates a backsplash.

Each piece is individually polished in our studio.

Laurel Liners and Laurel Dots - our tiles are made to spark your imagination.

Avila Liners and Carmels - a perfect combination. Color match your tile to our gemstones - Pictured here with Unikite.

Barcelonas and Florentine Liners

A classic pairing - Our Acanthus Liners with Small Acanthus decos.

Segovia Cornice, Large Barcelona and Segovia Liner all in Oil Rubbed Bronze combined with gold marble

Florentine Liner, Alhambra , Large Barcelona and Medium Barcelona all in Bronze Patina combined with light slate.
